

Revision Notes, Two Worked Examples

Dewata Tech · dewatatech.com

Both run five rows and both were sent in one go. The only difference is the kind of change, and that is what decides whether your allowance moves.

A small note

Villa Karang Putih, design stage, sent 3 March

No	Page and section	Currently	Please change it to
1	Home page, price block	IDR 1,800,000 per night	IDR 2,100,000 per night, from 1 July
2	Rooms page, second photo	the old deluxe room shot	kamar-deluxe-2026.jpg, the file I already sent
3	Footer, every page	check-in reads 13.00	14.00
4	Contact page, address	written Jalan Labuansait	Jalan Labuan Sait, with the space
5	Amenities page, the list	Wi-Fi is not on the list	add one line: Wi-Fi, 100 Mbps in every room
Rounds used			0 rounds

All five are content corrections rather than rearrangements. We fold them into the work already in progress and your round allowance stays whole.

A big note

Villa Karang Putih, design stage, sent 11 March

No	Page and section	Currently	Please change it to
1	Home page, block order	the photo gallery sits below the price	the gallery above the price, so the photos come first
2	Every page, top menu	Home, Rooms, Amenities, Location, Contact	Amenities folded into Rooms, and Offers added before Contact
3	Home page, top section	one pool photo	three photos in rotation: pool, master bedroom, sunset
4	Every page, colour	dark green	cream and brown, following the brochure I sent
5	Home page, price block	IDR 1,800,000 per night	IDR 2,100,000 per night
Rounds used			1 round

Five notes, sent once, still 1 round. Row 5 is a price correction that rides along at no extra cost.

How to use this

1. Fill in the table below. One row per change.
2. Collect every note first, then send once. Ten rows sent together still count as 1 round.
3. Name the page and the section, not "that thing at the top".
4. Write both the current state and what you want instead, so we are not guessing.
5. One person sends it, so the notes cannot contradict each other.
